Bibliography: Language display

The KNV-database now shows the language in which the title is written.

The screenshot shows a database record for 'Panorama Norwegen, Wandkalender 2017'. The record includes a cover image of a Norwegian landscape, a 'Calendar' icon, and detailed bibliographic information. The language field is highlighted with a red box and contains the text 'Language: Norwegian, English, German'. The record also shows the publisher 'Travel Media / Nordlys - KNV', a price of 31.90 EUR, and a 5-star rating.

New identification of volume numbers

Volume numbers without text (i.e. „Bd.“, „Vol.“, „Tl.“) are now identified by a preceding number sign.

The screenshot shows a database record for 'Sugg, Zoe, Girl Online on Tour, 14.99 EUR'. The record includes a cover image of the book, a 'Hardcover' icon, and detailed bibliographic information. The volume number '#2' is circled in red. The record also shows the publisher 'cbj - KNV U', a price of 14.99 EUR, and a 5-star rating.

Archive Books in Print now integrated

If you have a subscription of Books in Print, in which archived Books in Print titles are also included, this stock will now be searched automatically. These titles are displayed as “Archived Books in Print title” in full view and as „Status: Archived Books in Print title” in Commercial data.

Instant ordering: Display of number of reserved titles

The dialog window after instant ordering has been enhanced by an information for backorders. If a title is not in stock or not available in the requested quantity, the backordered quantity and the information number of the title will be indicated.
